

Important Announcement

RawMat2021

International Conference on Raw Materials and Circular Economy

“Technological Developments and Future Challenges”

5 - 9 September 2021

4 September 2021: Pre-conference info/business day

Athens, Greece

www.rawmat2021.gr

Dear colleagues,

After carefully considering the existing conditions and the uncertainty related to international travel and gathering of large groups, the Organizing Committee of the **International Conference on Raw Materials and Circular Economy “Technological Developments and Future Challenges” (RawMat2021)** decided to proceed with the organization of the event in a **hybrid format**: providing the opportunity for both physical (on-site) or virtual (on-line) attendance and presentation. In its physical form, RawMat2021 will be hosted in Athens, Greece, in the period 5-9 September 2021.

According to this decision, the registration fees were modified as follows:

Physical attendance

	Before 31 May	After 31 May
Standard registration (max 2 papers)	€350	€400
Each additional paper (>2)	€80	
Standard registration (without paper)	€250	
Students (max 2 papers)	€220	€270
Students (without paper)	€120	
Students daily pass (without paper)	€60	

The registration fee for physical attendance includes the conference material, the participation in the Welcome Cocktail, coffee breaks and lunch breaks. Planned technical sessions and all other events such as the Welcome Cocktail, the Gala dinner as well as possible field trips will be held in full compliance with the prevailing health and safety measures.

In the case that the conference goes fully virtual, a refund amount equal to the difference with the virtual attendance rate will be applied.

Virtual attendance

	Before 31 May	After 31 May
Standard registration (max 2 papers)	€250	€300
Each additional paper (>2)	€80	
Standard registration (without paper)	€150	
Students (max 2 papers)	€140	€180
Students (without paper)	€80	
Students daily pass (without paper)	€50	

According to the European Commission's Taxation rules all prices include the VAT referring to the Greek VAT regulation. For VAT recovery in other EU countries please contact local Tax administration offices.

To benefit from the reduced registration fees, students should attach a valid student identity card to the registration form.

Upgrade from Virtual attendance participation to the Physical attendance form is possible at any time after registration is completed by paying the fee difference.

RawMat2021 aims to provide an excellent opportunity for shared presentation of common interest that encompasses and promotes interactive dialogue on the recent advances, innovations and trends in the field of raw materials. RawMat2021 shall promote new tools, methods, research findings, methodological frameworks and hypotheses as well as innovative ideas to be presented in its scientific and technical sessions.

Contribute in RawMat2021 program and promote your research by submitting your abstracts until 15 April 2021.
